KOHLI PhD FELLOWSHIP @ IIIT HYDERABAD

International Institute of Information Technology, Hyderabad (IIITH) invites applications for Kohli PhD Fellowship towards pursuing PhD degree at Kohli Centre on Intelligent Systems (KCIS).

Established in 2015 with funding from Tata Consultancy Services (TCS) Foundation to give a fillip to research, teaching and entrepreneurship in the broad areas of Intelligent Systems, KCIS has since then evolved into India's leading center on intelligent systems. It has undertaken groundbreaking research in the areas of language technology, computer vision, data sciences, robotics, cognitive sciences, machine learning and many application areas. KCIS has been recognized and commended by researchers the world over and has brought together the sharpest minds to create India's largest Artificial Intelligence team, successfully taking research from lab to land and engaging with society through its educational outreach.

While there are 6 major research centers at KCIS, multi-disciplinary and applied research also takes place between these centers and others at IIITH.
